

## **Why are you applying for Financial Aid?**

I'm a student from India keen to learn about Data science. Since the quality of education in our college is not up to the mark, the only way to get a viable career option in the future for me is to take this course. Since I am a student and our college does not permit part time job, I would not be able to carry the expenses to pay for the certificate of this course. Financial Aid will help me take this course without any adverse impact on my monthly essential needs. I am really excited for this course, since it presents me with a great opportunity to grow my skills and become a professional as I graduate in the same or prospective fields with a great resume. Coursera has been a great platform among my peers and following them I am very excited to take this course here!

## **How will taking this course help you achieve your career goals?**

Data Science being a field in high demand, I want to complete the Deep Learning Specialization. This Course will boost my job prospects after graduation from my institute. It will help perform better in carrying out Data Science and give me an edge over my competitors. A verified certificate will attach credibility to the certificate I receive from this course. I plan to complete all assignments on or before time as I have done in previous Signature Track Courses. As written above, Coursera has been not only suggested by my student peers but also our college faculty, and so following their prestigious advice, I would be glad to gain more knowledge and hone my skills with this course. Also, I intend to participate in Discussion Forums, which I think will supplement my learning. I also plan to grade assignments which are peer reviewed which I believe will be an invaluable learning opportunity.

## Help Us Improve

We're always looking for opportunities to improve our financial aid program for learners like you and we'd love your feedback. This information will not affect your ability to receive financial aid.

### WOULD YOU CONSIDER USING A LOW-INTEREST LOAN TO PAY FOR YOUR COURSES?

- ☐ Yes, I would consider using a low-interest loan to pay for courses
  - ☒ No, I would not consider using a low-interest loan to pay for courses
- 

### If you answered no, please help us understand why?

As I have answered before, having no permanent source of income, I really don't see any way of advancing and paying for my course.

## BACKGROUND INFORMATION

Education background is required. Please select one of the provided options

Educational Background (required)

Annual income field is required. Please input a non-negative income in US dollars.

Annual Income (required)

Employment status field is required. Please select one of the provided options

Employment Status (required)

Please input a non-negative amount in US dollars you can afford to pay.

How much can you afford to pay? (required)

## AFTER SUBMITTING THE APPLICATION

We've received your financial aid application.

We've received your financial aid application for Convolutional Neural Networks. We'll let you know the outcome of your application after 15 days. If you choose to start a free trial, your pending financial aid applications will be cancelled. If you'd like to re-apply for financial aid after starting a free trial, you'll need to cancel your subscription first.
